# Skirmish Laser Games

Since our launch in 1984, Skirmish Paintball Games has become one of the largest and most respected paintball suppliers in the UK. Skirmish provides people of all ages with an exciting and rewarding day out at some of the finest paintball parks in the UK. We currently operate 29 Skirmish paintball parks across England, Scotland and Wales, and are now introducing the exciting new Laser Games that are especially children friendly to provide fun laser adventures for all to enjoy.

## School trips at Skirmish

Skirmish Laser Games is a great way to nurture and develop many important life skills in an environment that children will respond to. Ideal for school excursions and activity days, Skirmish Laser Games have developed a range of game scenarios designed specifically for school visits which provide a naturally exciting and mentally stimulating environment for children. Parents, teachers and politicians all agree that the value of taking children on school trips can be huge. It's a chance for the children to experience something new outside the traditional curriculum, while also helping to tackle the increase in childhood obesity by getting children more active.

A day of Laser Games at Skirmish provides children with a physical and mental workout that will have them running around breathing in fresh air while making them think on their feet. Under the supervision of highly trained marshals, children have a fantastic fun day out, remaining safe at all times. Suitable for both girls and boys, Skirmish Laser Games for children is designed to assist in the development of leadership, team work, self confidence and problem solving.

# Laser Equipment

## Laser Equipment

During 2006 Skirmish Laser Games started investing in the latest digital tagger technology. The laser "Tagger" systems offer the excitement of paintball but with no projectiles. Without the need for paintball masks and the risks of bruising it has opened up this exciting game to a broader age range. The great thing about the state of the art digital taggers is that the taggers can be programmed with different settings depending on the age and abilities of the group. By changing the amount of lives and ammo etc. the games can be made more challenging or simpler if needed. It is even possible to have different taggers in the same game with different setting meaning players who are finding the activities particularly challenging can discreetly be given a helping hand.

**Laser taggers do not use real lasers, they use harmless IR light similar to a television remote control.**

One of the main advantages for schools using Skirmish Laser Games is the fixed costs. Unlike paintball the cost of the event can be fixed in advance. With paintball, players had to purchase extra paintballs and with the temptation of players to shoot at anything that moves some players ran out of ammunition and missed games. With Skirmish Laser Games each player can have unlimited ammunition at the start of every game or all players have equal amounts of ammunition depending on the scenario and the players will not be expected to take extra funds to an event, except for drinks or snacks

# Where to Play

## Skirmish Woodland Venues

Skirmish Paintball Games has been established for over 20 years. All this experience has been used to create truly excellent paintball sites that can now be used for Skirmish Laser Games. With many different and exciting games and scenarios to play, you can guarantee a visit to Skirmish will be a memorable one.

These exciting paintball fields are ideally suited for laser games. All venues have developed adrenalin pumping scenarios to test the players with attack and defend games, protect the ambassador, rescue missions, classic woodland games and of course the much requested teachers versus pupil's game!

As an option maybe consider a 50/50 day with laser tag and paintball or even another activity. With excellent facilities we can accommodate your school ready for a great experience.

## Off site games - at your school

With the versatility of laser games it is possible to bring the excitement of Laser Skirmish to your School. All we need is a suitable space. This can be as small as a tennis court however more is recommended so we can bring a truly impressive game zone. Ideally the area would be grass however hard surfaces such as playgrounds, courts or sports hall can also be used.

Laser Skirmish at your school is ideal for end of term activity days, reward days and induction days. Events can be half days or full days and we can accommodate from 10 to 100+ pupils. With the larger groups we recommend they are split into small teams and the events run along the lines of a league, this generates a more competitive edge and ultimately more fun for the pupils and staff.

Price for outside venue events are based on your specific needs depending on the number of players, if the event is a half or full day and if you require trophies or awards. Please contact your local site for an individual quote.

# Paintball, Health & Safety

## Paintball Games

Skirmish has been offering paintball games for over 20 years and can accommodate from year 7 upwards. All skirmish sites offer the latest equipment semi automatic guns, full face goggle systems providing eye and ear protection, laundered overalls etc.

Paintball has proven to be a very popular event with schools in the past as it offers a form of excitement that has been hard to experience with other activities. Skirmish paintball games can offer this excitement within a controlled and managed environment. All Skirmish site can provide School packs with all the relevant Health and safety documentation.

## Health and Safety

The Health and Safety of all our staff and customers is our primary concern. All events both on site and off site are staffed by trained personnel. Senior staff at all events are first aid trained and CRB checked.

We understand the amount of paperwork involved to bringing your party to us or hosting an event at your school. This is why at Skirmish we strive to do all the paperwork for you making it easy for you to organise an event.

## Documents we have compiled are.

- Risk assessments
- Child protection policy
- Code of practice
- Health and safety policy
- Insurance policy documents

All these are available from you local site on request. In the past we have found our documentation to be all that was needed to organise an event however if you find you need further information from us please contact your local site.
